Strafford County Therapeutic Community Program

3 July 2014

To Whom It May Concern:

Hieu Ngo has completed the Men's Therapeutic Community program at SCDOC. He was admitted into the program on 04/02/14. He completed all phases of the program on 07/01/14

This program provides intensive drug and alcohol treatment in a segregated area at Strafford County Jail. Program participants receive daily drug and alcohol counseling along with cognitive behavioral change programming. All programming and peer activities are mandatory, and all participants are held to very restrictive cleanliness and behavior standards.

The program counselor states that Hieu's progress in the program was excellent. He contributed frequently to the group discussions and had a positive attitude. He also completed classes in anger management, parenting and career counseling while in the program.

Hieu was a peer leader in the program and has been allowed to remain in the program after graduation to mentor new participants.

It is our opinion that he participates in a meaningful manner in the programs at SCDOC.

Please feel free to contact the program department with any questions or concerns.

Sincerely,

Jake Collins, SCDOC
